

CISA®

Smart PLUS 2

Overhead door closers

Smart PLUS2

Overhead door closers

Smart PLUS2 is a range of high quality door closers by CISA, ideal for standard door control and all applications that require the very best in reliability and durability.

DOOR CLOSER WITH COVER

The compact design features a plastic cover whose rounded, eye-catching shape blends in with any environment.

QUALITY/PRICE

The excellent quality/price ratio, together with the reliability of CISA products, makes Smart PLUS2 door closers the perfect choice for all doors.

APPLICATIONS

- Standard doors
- Fire doors 

EASY INSTALLATION

Quick and easy to install thanks to the fixing template. The range has been designed so it is easily interchangeable with both earlier CISA models and other door closers available on the market.

RELIABILITY

The quality of the materials used and the level of precision engineering make CISA Smart PLUS2 door closers long-lasting and reliable.

COMPLIANCE AND MARKING

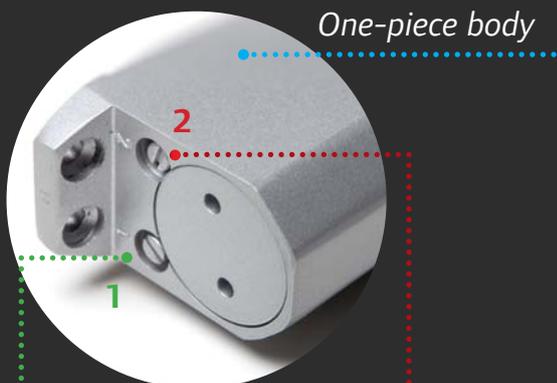

The materials used and the technical solutions adopted guarantee compliance with the strictest regulatory requirements. This has enabled CISA to obtain marks and certifications including: CE marking in compliance with Regulation (EU) No. 305/2011 issued by EXOVA for use on fire doors.

Arm with hold-open device

EN standard force adjusted
by changing the position of the support
(see Installation Instructions)

One-piece body

Closing speed
adjustment valve

Final latch
adjustment valve

TECHNICAL FEATURES

- Steel arm with hold-open device
- One-piece body in pressure die-cast aluminium alloy
- Rack and pinion mechanism in hardened steel for smooth and efficient operation
- Removable ABS cover

ADJUSTMENTS

- Multistrength version adjusted by changing the position of the body and the arm hinge, forces 2 and 3 (EN1154 force), force 3 (CE)
- Separate closing speed and final latch adjustment valves
- Closing speed can be adjusted from 180° to 15° by the relevant valve (1)
- Force of final latch can be adjusted from 15° to 0° by the relevant valve (2)
- Hold-open position can be adjusted up to 130° (cannot be used on fire doors)

Adjusting strength and maximum door dimensions.

The closer body remains in a fixed position. The closing force of the door is adjusted by changing the position of the arm support.

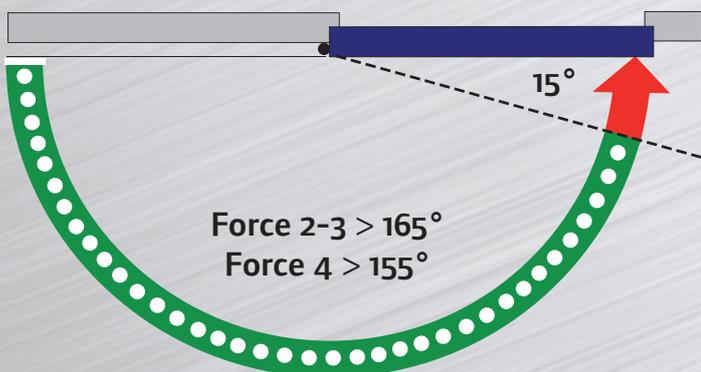

Installation on side opposite hinges,
for doors opening outwards

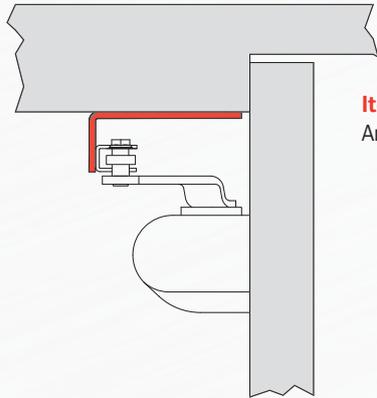

Installation on hinge side

ADJUSTMENTS

 Adjustment sector for final latch (with valve)

 Adjustment sector for closing speed (with valve)

Item 07141 01
Angle bracket

- 1 Closing speed adjustment valve
- 2 Final latch adjustment valve
