MULTITOP MATIC

Sicurezza automatica,
senza più pensieri.

La tranquillità abita qui.

Porta sempre chiusa in sicurezza, in 6 punti, senza utilizzare la chiave con **Multitop MATIC**

Un nuovo sistema di chiusura per porte in alluminio e ferro: i catenacci escono automaticamente semplicemente accostando la porta. Aggiungendo l'accessorio MOTORE CISA è possibile aprire elettricamente la porta a distanza.

CHIUSURA AUTOMATICA, SEMPRE IN SICUREZZA

Multitop MATIC non richiede l'utilizzo della chiave per la chiusura: basta infatti accostare l'anta al battente della porta per attivare automaticamente l'uscita dei tre catenacci e dei tre scrocchi. Multitop MATIC raggiunge il massimo grado di sicurezza richiesto dalla normativa Europa.

3 SCROCCHI SEMPRE IN PRESA

Favoriscono lo scorrimento libero dei catenacci sia in uscita sia in rientro e garantiscono la chiusura ermetica della porta, migliorando l'isolamento termico e acustico e ottimizzando il risparmio energetico.

INTERCAMBIABILITÀ DELLE CAVE DI LAVORAZIONE SUL PROFILO

Multitop MATIC consente di mantenere le stesse cave di lavorazione sul profilo e le stesse contropiastre già in uso per tutte le serrature della famiglia Multitop, riducendo tempi e costi di installazione.

FUNZIONE BLOCCO MANIGLIA

L'apertura della porta dall'interno è immediata, abbassando la maniglia i 3 scrocchi e i 3 catenacci rientrano simultaneamente. È possibile escludere questa funzione ruotando la chiave nel senso di chiusura della serratura.

MOTORE CISA

Il MOTORE CISA consente di aprire la serratura Multitop MATIC da remoto.
È un accessorio installabile a richiesta ed è unico per tutta la gamma di serrature Multitop MATIC.
