# DOMO CONNEXA is the smart solution for armoured doors.

CISA, a leading provider in the mechanical security sector, has teamed up with NUKI, the smart lock specialists, to launch CISA DOMO CONNEXA. The solution that brings smart security to armoured doors, creating the intelligent access system of the future: the Smart Door.

The 'Works With Nuki' system was created to combine the guaranteed security and protection of CISA products with the convenience and flexibility of the Nuki platform.

The new CISA BUTTON houses Nuki's smart connectivity.

## SMART DOOR

A Smart Door ensures easy and intelligent access management using your smartphone. The Nuki app allows you to lock and unlock your door, and check it is open or properly closed. You can also assign access rights to others, specifying the days and times they can enter.

## REMOTE CONTROL

By using the Nuki Bridge and activating the Remote Access Activation Code, you can manage your Smart Door on the go - whether you're at the park with friends or at the airport setting off on your next business trip.

## SMART CREDENTIALS

Open your Smart Door in the way that works best for you: with your smartphone, the Nuki Keypad or Nuki Fob, or even a traditional key.

DISCOVER THE NEW REMOTE ACCESS  
MANAGEMENT AND CONTROL SYSTEM.

# DOMO CONNEXA

## Remote control, real time security.

### REMOTE ACCESS MANAGEMENT

By using the Nuki Bridge and activating the Remote Access Activation Code, you can create or change access credentials in real time, even when you're out and about. You can consult the access log, check door status and receive notifications from your Smart Door.

### MINIMAL DESIGN

The design of the Smart Door is minimal yet traditional. The CISA BUTTON, which houses the system's technology, is located on the inside of the door so is not visible from the outside, ensuring privacy and peace of mind.

---

# DOMO CONNEXA

## Open the door to convenience

---

### COMFORT AND AESTHETICS

Thanks to Bluetooth Low Energy 5.0 technology, your smartphone has a longer range, so now you can open the door without getting off the sofa. And if you have activated remote connectivity, you can ask your voice assistant to open the Smart Door for you.

These features are possible thanks to the CISA BUTTON, with its minimal design that blends in with any style of door.

---

### SILENT, AUTOMATIC OPERATION

The DOMO Connexa motorised lock has been designed so the deadbolts and latchbolt engage and withdraw automatically and intelligently. All movements are smooth and silent, so they won't disturb you.

A Smart Door

## NUKI APP

The Nuki app, with its modern and intuitive features, allows you to **control your Smart Door and any accessories connected to it.**

You can open and lock the door, check door status, create credentials, set the operating logic and lots more besides.

makes life easier.

# BUTTON

The CISA BUTTON is **smart**, stylish and modern and houses all the DOMO Connexa technology. It is integrated with the 'Works With Nuki' system, transforming a traditional motorised door into a Smart Door.

# DOMO

CISA DOMO Connexa is a state-of-the-art **motorised lock** which, when combined with the BUTTON, turns good intentions into actions, offering security, technology and convenience.

---

# CISA BUTTON

The smart  
button

**THE CISA BUTTON,  
INSTALLED ON THE INSIDE  
OF YOUR ARMoured DOOR,  
HOUSES ALL THE SMART  
TECHNOLOGY.**

It may be small, but its personality is large. The metal finish is a stylish addition to any contemporary door.

### DESIGN

- Minimal and stylish
- Anodised aluminium surface
- Can be either square or round
- Available in matt black or silver grey
- Ergonomic and user-friendly

### INSTALLATION

- Round support for easy installation
- Very easy to configure to connect with phone app

### CONNECTIVITY

- Bluetooth Low Energy 5.0.

### COMPATIBILITY

- Android 5.0 and later versions
- iOS 11.4 and later versions and watchOS 4.0 or later versions

# CISA DOMO

## The motorised lock

### **SECURE, RELIABLE, SILENT.**

DOMO combines the highest levels of protection and resistance to forced entry with the comfort and flexibility of electronics.

It has been tested and certified in compliance with the strictest European standards.

The door status device consists of a patented mobile sensor which can be positioned anywhere along the door profile.

## FEATURES

- Motorised lock with Euro profile cylinder
- Smart automatic locking
- Powered by batteries or power supply
- Silent operation
- Available in both the rim and mortice versions
- Patented door status contacts group
- Certified in accordance with EN 12209:03 and EN 14846:10

## The Nuki Partnership

The Works with Nuki system allows you to integrate Nuki connectivity directly into your armoured door.

Nuki is the leading Austrian manufacturer of modern smart access systems in Europe.

In partnership with CISA, leader in the security sector, a new solution for armoured doors has been created that transforms a traditional door into a Smart Door for a smarter lifestyle.

## NUKI APP

### YOUR SMARTPHONE BECOMES A SMART KEY

Thanks to the Nuki app, you can control your Smart Door easily and intuitively.

It lets you manage, authorise and control access in real time, even when you're on the go.\*

The Nuki App is free and available for iOS and Android smartphones.

\* These features require Nuki Bridge and activation of the licence for remote access.

### SMART

- Door can be opened from close by or remotely\*
- Credentials can be created to grant access to family members, cleaners or tradesmen on certain days and at specific times
- Event logging
- Automatic opening when you are near the door (by activating the “smart actions”)
- “Night mode” setting for safety and comfort when you go to bed
- Door status monitoring
- Battery level monitoring

**AVTEST**  
The Independent IT-Security Institute  
Magdeburg Germany

### SECURE COMMUNICATION

The Nuki app uses security mechanisms certified by the German security institute AV-TEST and can be compared to the standards used in online banking.

**NUKI** KEYPAD  
**NUKI** FOB

### OPENING CREDENTIALS

The Nuki Keypad and Nuki Fob are a smart alternative to the app. With the Nuki Keypad you can enter your home without having to carry credentials, while the Nuki Fob is ideal for simple, instant opening.

# NUKI BRIDGE

## For remote access

### THE SMART DOOR GOES ONLINE

If you purchase Nuki Bridge and activate the licence for the remote access service (RAAC), you can connect your Smart Door to your home Wi-Fi. This allows you to manage all the features of your Smart Door when you're away from home. You can integrate your Smart Door with your smart home and activate Nuki Web to control your Smart Door from your computer.

### OPERATION

- Nuki Bridge is an accessory which is connected to a normal power socket and allows your Smart Door to communicate with your home Wi-Fi router
- It is easy and intuitive to configure using the Nuki app in under three minutes
- It has a button for configuration and a LED for signals
- Required for smart home integrations such as Amazon Alexa and Google Home

### THE BENEFITS OF BEING ONLINE

- You can control your Smart Door remotely and in real time
- You can create or change credentials remotely and in real time
- Can be integrated with Google Home and Amazon Alexa voice assistants
- Can be integrated with smart home systems
- You can control and manage your Smart Door from your computer (Nuki Web)

### INTEGRATION

- Integrated with voice assistants and other platforms.
  -  Google Assistant
  - 
  -  amazon alexa
  - 
- Compatible with Apple Watch
