La certificazione del sistema Multitop Matic Exit è valida solo se vengono installati i componenti specificati in TAB.1 (sistema certificato, norma EN1125). La certificazione decade qualora venga installato anche un solo componente non presente nella distinta. * Se la porta non è tagliafuoco, è consentito installare articoli diversi da quelli specificati nelle colonne 5, 9, 10

The Multitop Matic Exit system certification is valid only if components listed in Table 1 are installed (certified system, EN1125 standard). The certification is invalid if even a single component is installed that is not among those present in the list. * If the door is not a fire door, items other than those specified in columns 5, 9 and 10 may be installed.

La certification du système Multitop Matic Exit n'est valable que si les composants indiqués dans le TABLEAU 1 sont installés (système certifié, norme EN1125). La certification perd sa validité en cas d'installation d'un seul composant non présent dans la liste. * Si la porte n'est pas coupe-feu, il est permis d'installer des articles différents des composants spécifiés dans les colonnes 5, 9 et 10.

La certificación del sistema Multitop Matic Exit es válida solo si se instalan los componentes especificados en la TAB. 1 (sistema certificado, norma EN 1125). La certificación caduca si se instala un componente no presente en la lista. * Si la puerta no es cortafuegos, está permitido instalar artículos diferentes de los especificados en las columnas 5, 9, 10.
